Then there will snow for a day or two, but then the sunshine will come again, and the weather will be even D_____ than now." "These old Indians seem to know more about nature than we with all our science," said the man to his friend. Then he turned to the old Indian. "Tell me how you know all that?" he asked. The Indian answered the man, "I E_____ the weather forecast on the radio".

- 4** Установите соответствие между текстами А–Е и их темами, выбрав тему 1–6 из списка. Используйте каждую тему только один раз. В задании одна тема лишняя.

This text deals with...

1. school cultural activities
2. the purpose of going to school
3. a favourite subject
4. a timetable at school
5. a favourite school
6. a favourite teacher

- A) School is not only a place of education. It is a place where we develop our relationships. At school we can show our individual talents. Everyone can join a school club or take part in other activities. Pupils always have a lot of parties, competitions and excursions. Such activities help us in our education and relationship with our classmates. So I go to school with pleasure, because I like my school and my class. I am sure that school years will be the happiest time in my life.
- B) As for me, I am fond of my school. I go to our local secondary school which provides advanced study of some subjects. I chose the class of Maths because I think that I'm good at it. And other subjects don't come so easy to me. So there are six lessons of Maths every week in our timetable and a few additional lessons a week. So, I come home later than students of other schools. And I usually have a lot of homework to do, but I don't mind! We have very good teachers who help us if we have some difficulties.

- C) A teacher plays an important role in our education. I think that I am lucky because my English teacher is very experienced and kind. She understands the difficulties of learning process very well. She helps us to learn and advises us on all aspects of our life. She gives us her knowledge and experience and she is never angry or upset with us. She supports us and takes care of us. That's why I am happy at school and so are my classmates.
- D) I can't say that I'm quite bad at Maths or Physics, but most of all I enjoy English. I am very grateful to my teacher because thanks to her I'm interested in this subject. My favourite activities at our English classes are making up interesting dialogues and acting out conversations. I am sure that being in love with my subject helps me greatly to cope with some difficulties in studying grammar and vocabulary.
- E) Some students like school, others don't, but they all study at school for eleven years. For students who do well in most subjects school is an attractive place. But for those who are not successful, school is boring and uninteresting. I can say that I am happy at school. The standard of education in our school is very high. We study many subjects and our lessons are usually interesting and exciting. I can say that we have many social and cultural activities at school. I like my school very much.
