25. I believe that, if Miss Marple lived in our time, her knowledge of human nature _____ very useful too!	BE

III. Домашнее задание на 20.05:

You are going to read the text aloud. You have 1.5 minutes to read the text I silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

The Black Sea is one of the favourite tourist destinations. It is popular with young people, families with children, and elderly couples. The mild climate and wonderful scenery make Black Sea holidays a very pleasant pastime. Another good thing about it is that the waters of the sea are quite safe. Though it is deep (some areas have a depth of 2200 metres), there are no dangerous creatures like sharks or poisonous jelly-fish in its waters. The Black Sea, however, has a lot of mysteries. The name is one of them. It is believed to have appeared in the 13th century, but there are different explanations of the name's meaning. Some scientists suppose that it means 'inhospitable', the others say black denotes the direction — the sea to the north.

Ход урока

I. Организационный этап.

- Good morning! Доброе утро, ребята! How are you? Как дела?

1. Выполнить задания на Решу ОГЭ.

<https://en-oge.sdangia.ru/test?id=839733>

2. Чтение

Прочитайте тексты и установите соответствие между текстами и их заголовками: к каждому тексту, обозначенному буквами А–G, подберите соответствующий заголовок, обозначенный цифрами 1–8. Используйте каждую цифру только один раз. В задании есть один лишний заголовок.

1. One product — many dishes
2. Simple to prepare
3. Once local — now global
4. Good for everyone
5. More than food
6. Impossible to grow
7. Synonymous to food
8. Different table manners

A. Over the centuries, rice has become a part of the traditions of many cultures. In some societies, it is traditional to throw a handful of rice on newlywed couples,

symbolizing the wish for a large family and prosperity. In India, rice is traditionally the first food that bride offers her new husband. It is typical for people to leave offerings of rice in Buddhist temples. In Thailand, the annual Royal Plowing Ceremony has taken place in front of the Grand Palace in Bangkok for seven centuries.

B. The basic recipe for cooking rice is easy. First you need to bring 2 cups of water to boil. When the water is boiling, add 1 cup of rice. Cover the pot. As soon as the water boils again, reduce the heat. Let the rice cook for 15 to 20 minutes. The rice is ready when all the water is absorbed. It's now possible to buy rice cooking machines that cook perfect rice every time, especially in large quantities. This is particularly helpful in Asian cultures, where families often eat rice with every meal. In these countries, rice is also used to make pancakes, sweets and wine — indeed almost anything!

C. Rice is the primary source of nutrition for more than half of the world's population. Countries as different as Japan, India, Nigeria and Mexico use rice in their national cuisine. In Chinese, the word for rice is the same as the word for food. And in Thailand, when you call your family to a meal, you say "eat rice." So it's easy to understand why the 2008 global rice shortage was a real crisis for billions of people. In some countries the shortage led to big price increases. Some governments had to control the sale of rice.

D. Many people consider rice to be one of the healthiest of possible food choices. It has no sodium or cholesterol, and almost no fat. One half cup of rice has approximately 100 calories, and those calories are rich in important vitamins and minerals, including folic acid, iron and zinc. Many athletes eat rice because as a carbohydrate it is a great source of energy. Rice even has certain chemicals in it that are supposed to improve your mood. Brown rice is the healthiest of all because it is 100% grain.

E. Archeologists believe that rice has been grown as a source of food for at least 4000 years. It was first grown in China, and then introduced to India. Over the centuries the practice of growing rice has spread literally across the globe. Today rice is grown in Peru, Egypt, and even the United States, but over 90% of the world's rice is still grown in Asian countries. Rice is best grown in wet, sub-tropical climates, and in many countries it is still cultivated using intensive human and animal labor. For this reason, large families are still typical, and the water buffalo is a valued possession.

F. One of the amazing things about rice is how adaptable it is. It is an essential ingredient in cuisines all around the world — cuisines as different as Japanese, Mexican, and West African. The Japanese combine sticky rice with raw fish to create numerous varieties of sushi. Mexican rice, flavored with cumin and tomatoes, is a colorful side dish. Every country in West Africa has its own version of a regional rice dish called jollof, often served with fried plantain, a kind of banana.

G. All around the world people eat rice in different ways. In India it is traditional to eat rice with your right hand. You just mix the rice with a little curry, roll it into a ball, and pop it into your mouth. In China it's common to use chopsticks (or kuaizi). People in Korea, Thailand and Vietnam eat their rice with a spoon. And in European countries and in the United States rice is eaten with a fork.

III. Домашнее задание. Письмо.

You have 30 minutes to do this task. You have received a letter from your English-speaking pen friend, Ann.

...My friend has decided to become a model and has just gone on a diet. I told her that it could be dangerous but she wouldn't listen. Besides she is a vegetarian, so there are not many products she can let herself eat now...

Why do people become vegetarians? What do you do to keep fit? What food do you try to avoid?

Write her a letter and answer her 3 questions. Write 100–120 words. Remember the rules of letter writing.
