- A. Everyone has heard of Bill Gates, the icon of American business. He was born on the 28th of October 1955 in Seattle, USA, now known as the home of Microsoft, and spent the early years of his life there. He grew up in an upper middle-class family. His father was a prominent lawyer. His mother was a teacher and then worked as a company director. From his parents Bill got a good business sense and a quick mind.
- B. At school Bill Gates soon showed high intelligence. His favourite subjects were maths and science. At the age of 13 he got interested in computers. Bill and his friend Paul Allen, who was two years his senior, spent a lot of time on computers though they were not very interested in studying other subjects. Gates finished school in 1973 and decided to go to university.
- C. Soon Bill Gates entered Harvard and became a student. Most of the time he worked on the computers in the laboratory. Bill and Paul Allen soon wrote an operating program for the Altair, one of the world's first microcomputers. They were very different people. Allen was more reserved and shy, while Bill was very ambitious and hard-working. But they shared a common enthusiasm for computers. Bill knew, even then, that he would revolutionize the world of computers. He left Harvard before finishing his university studies and devoted himself to business.
- D. The two friends started Microsoft in 1975 and very soon it became very profitable. In fact, they built the world's largest software business. Later Microsoft also developed such well-known programs as Windows, Excel and Internet Explorer. Bill's dream was to computerize everything — TVs, telephones and even the way you cook dinner. Bill Gates has achieved a lot. In the process, he became one of the richest men in the world.
- E. That lifestyle didn't leave Bill Gates much time for a personal life, but in 1994 he married Melinda French, a Microsoft employee. The couple has three children. Their first daughter Jennifer was born in 1996, their son Roy was born in 1999 and their second daughter Phoebe arrived in 2002. For such a rich person he leads a very simple life and spends very little on himself.
