Charles Dodgson was a brother of the famous English writer Lewis Carroll.

- 1) True
- 2) False
- 3) Not stated

Lewis Carroll

Lewis Carroll was the pen-name of Charles Dodgson, an English writer and author of two of the best loved children's books in English Literature – “Alice's Adventures in Wonderland” and “Through the Looking Glass”. The characters and phrases from these books have entered and become part of the English culture so if someone calls you “Mad as a Hatter”, you know whom to thank.

Charles Dodgson was talented in many ways. Apart from being a creative writer, he was also a Mathematics Don (professor) at Oxford and a well-known logician. He was interested in photography and music. He sang very well, played chess and enjoyed creating and solving puzzles.

Charles Dodgson was born on 27 January 1832 and spent the first eleven years of his life at Warrington, Cheshire where his father was the priest. His family was large; his parents had 11 children, 4 boys and 7 girls.

Charles was educated first by home-schooling, then at two boarding schools, and finally at Christ Church College, Oxford. Later in life, he remembered his boarding school experience without any warm feelings. Still, he was an excellent student and studied very well in all his subjects.

In 1854 Charles Dodgson got a 1st class degree in Mathematics and one year later he became a lecturer in Mathematics at Christ Church College. It was then that he started his literary career and took his pen-name, Lewis Carroll. While his creative books and poetry were published under his pen-name, he also wrote books on Mathematics under his own name.

When a new Headmaster arrived at Christ Church College, he brought with him his family. Dodgson became the family's close friend. The Headmaster's little daughters, the youngest of which was called Alice, enjoyed his company very much. Charles often entertained the girls by telling them stories about imaginary worlds with fantastic creatures.

The story about the adventures of little Alice became popular all over the world. “Alice in Wonderland” is primarily a children's story, but adults have enjoyed the novel for over a century together with children.

Many elements of “Alice” were not completely new. Talking animals, for instance, or the story idea in which a child or children are carried away from reality into a fantasy world. However, it was Carroll who established a new motif that would be used again and again in children's literature: Peter Pan, The Wonderful Wizard of Oz, the Narnia books, and the Harry Potter books. That is the possibility for the main characters to travel back and forth between the real world and wonderland.

Though his characters travelled a lot between one world and another, Charles Dodgson himself didn't like being away from home. The only occasion on which (as far as it is known) he went abroad was a trip to Russia in 1867.

He died of pneumonia on 14 January 1898 at his sisters' home. He was 2 weeks away from turning 66.

3. Работа с грамматическим материалом

Cambridge University was started by the students of Oxford University.

- 1) True
- 2) False
- 3) Not stated

Cambridge University is the second-oldest university in the English-speaking world (after the University of Oxford) and the seventh-oldest in the world.

The story of Cambridge University begins in 1209 when several hundred students arrived in the little town of Cambridge after having walked 60 miles from Oxford. These students were all churchmen and had been studying in Oxford at that city's well-known schools. It was a hard life at Oxford for there was constant trouble, even fighting, between the citizens of the town and the students. Then one day a student accidentally killed a man of the town. The Mayor arrested three other students who were innocent and they were put to death. In protest, many students left Oxford, some of them went to Cambridge. And so the new University began.

It was Cambridge University. Of course, there were no Colleges in those early days and student life was very different from what it is now. Students were of all ages and came from anywhere and everywhere. Life in University was strict. Students were forbidden to play games, to sing (except sacred music), to hunt or fish or even to dance. Books were very rare and all the lessons were in the Latin language which students were supposed to speak even among themselves.

In 1440, King Henry VI founded King's College, and other colleges followed.

Nowadays there are more than 30 different colleges, including five for women students and several mixed colleges, in the University. The number of students in colleges is different: from 30 to 400 or 500.

The training course lasts 4 years. The academic year is divided into 3 terms. The students study natural and technical sciences, law, history, languages, geography, medicine, economics, agriculture, music and many other subjects. After 3 years of study a student may proceed to a Bachelor's degree, and later to the degrees of Master and Doctor.

There are many ancient traditions that are still observed at Cambridge. Students are required to wear gowns at lectures, in the University library, in the street in the evening, for dinners in the colleges and for official visits. One more tradition is to use Latin during public ceremonies of awarding degrees.

All the students must pay for their education, examinations, books, laboratories, university hostel, the use of libraries. The cost is high. It depends on college and university speciality. Very few students get grants.

Many great men studied at Cambridge, for example, Bacon (the philosopher), Milton and Byron (the poets), Cromwell (the soldier), Newton (the outstanding physicist), Darwin (who is famous for his theory of evolution) and Kapitsa (the famous Russian physicist).
